Could help, please?

Rt. 8, Frederick, Md. 21701
4/11/75

Dear Time-Bomb Raymond Trifari,

If you could tranform yourself into a ball of fire rather than a time bomb, but with the same energy, there are things you can do that could be helpful.

Of course publicity always helps. But your employment at and I presume familiarity with the college library provides an immediate means.

I work with Jim Lesar, 484-6023. Please do not phone him before 10:30 a.m. There is library research that needs doing now. And he and I have little time although we both work inordinately long days.

I am familiar with WGTB-FM. It has a good signal almost twice the distance you say. I particularly dig the New Orleans jazz program that is on 5:30 a.m. Or is that WAMU? Andway, you do have a good signal here, even on a small portable when I walk and sometimes take in the alternative news. (Your carrying Zodiac's story on Whitewash IV did not bring a single order, however.)

One bit of research is to see if William Bradford Huie wrote news or magazine stories (perhaps Colliers) on a famous case of the early 1950s, the Floyd murder case in Texas. Percy Foreman was defense counsel in that case. Our interest in him comes from the King/Ray case. If you find any Huie writing on this we'd much appreciate xeroxes.

Thanks for the offer. When Jim and I are together we'll see what other research projects you can do for us. This kind of help will be quite welcome.

Sincerely,

Harold Weisberg

CC:Jim Lesar
